Dear Governor Brown,

I'm writing to ask for your signature on AB 6 *The CalFresh Act of 2011*. AB 6 includes considerable improvements to CalFresh that would make the application process more manageable for clients and administrators, increase benefits and improve access for eligible Californians, increase program efficiency, and bring ongoing cost savings to the state. Now is the time to ensure that low-income Californians are not going hungry because of unnecessary bureaucratic hurdles.

I ask that in 2011 you help to alleviate the struggles of hunger and food insecurity facing too many Californians.

Sincerely,

---
