

Support AB 1872 and Improve Nutrition in Child Care!

- Sets the same nutrition standard for licensed family day care *homes* as exists in child care centers.
- Requires the Department of Social Services (DSS) to inform all child care providers about CACFP—including significant federal reimbursements increases CACFP participation would bring to California.

Dear Governor Brown,

I'm writing to ask for your signature on AB 1872 (Alejo) *Improving Child Care Nutrition*. Most people are surprised to learn that licensed family day care homes are not obligated to follow *any* nutrition standards for the meals and snacks they serve. With health care costs soaring and childhood obesity rates at epidemic proportions, it is crucial we identify solutions. By supporting the early development of healthy eating habits, AB 1872 aims to ease these costs and the adverse health impacts related to childhood obesity. AB 1872 is a cost-efficient step toward creating healthy nutrition environments for California's youngest residents. For these reasons, I urge your signature on AB 1872 (Alejo).

Sincerely,

(Address)

Send to:
Governor Edmund G. Brown
State Capitol, Suite 1173
Sacramento, CA 95814
