California Immigrants in Food-Insecure Households

- 45% of undocumented immigrants
- 64% of undocumented children
- Nearly 500,000 undocumented adults (most ages 27-49)

Source: California Health Interview Survey. CHIS 2017-2020 (pooled). Food insecurity by age group among non-citizens without legal permanent resident status and with household income below 200% of the official federal poverty threshold.
